GoRan
BUILDING INTELLIGENCE

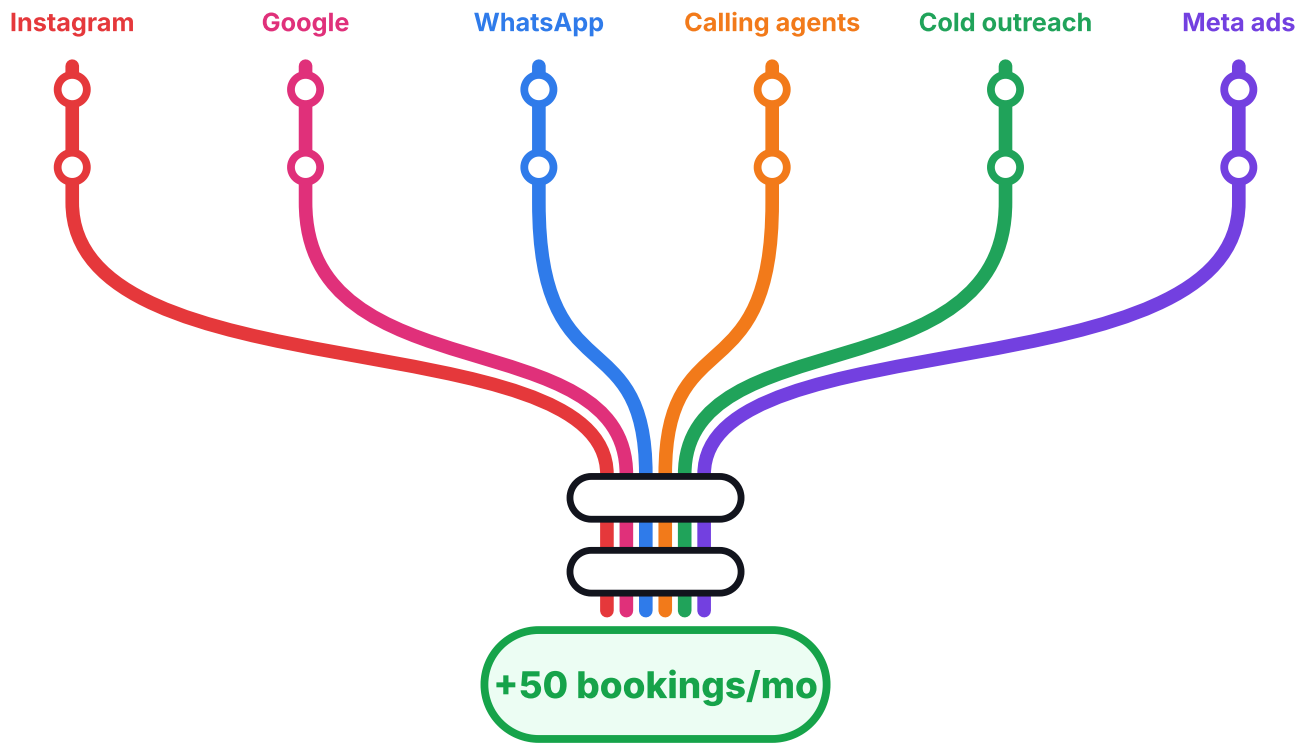

FREE FIELD GUIDE

FOR TRAVEL AGENCIES & TOUR OPERATORS IN INDIA

Travel Agent AI Map

Add 50 bookings a month.

The full journey from first scroll to paid advance, mapped like a metro line. Every station, what to do there, and what AI can run for you while your team sleeps.

Ashish Ranjan
Founder, GoRan AI

6 LINES · 30 STOPS · 1 DESTINATION

Most travel agents don't lose bookings to cheaper prices.

They lose them because the enquiry came in at 11 PM, the call went unanswered, and the customer booked with whoever replied first.

THE THREE LEAKS

01

After-hours silence

Travellers plan trips at night and on weekends, exactly when your team is offline. The enquiry sits unread till morning.

02

Slow first reply

By the time someone calls back, the traveller has messaged three other agents. The first useful reply usually wins.

03

No follow-up

Quote sent, customer goes quiet, nobody chases. Most "lost" leads were never lost. They were just left alone.

7×

Companies that responded to a lead within an hour were about **7 times more likely to qualify it** than those that waited an hour longer, and over 60 times more likely than those that waited a day.

Harvard Business Review, "The Short Life of Online Sales Leads" (2011), study of 1.25 million leads across 42 companies.

HOW TO READ THE MAP

ZONE 1 · REACH

6 lines bring enquiries in: Instagram, Google, WhatsApp, AI calling agents, cold outreach and Meta ads.

ZONE 2 · CAPTURE

2 junctions catch every call, chat and form, so nothing sits in a personal phone or a forgotten inbox.

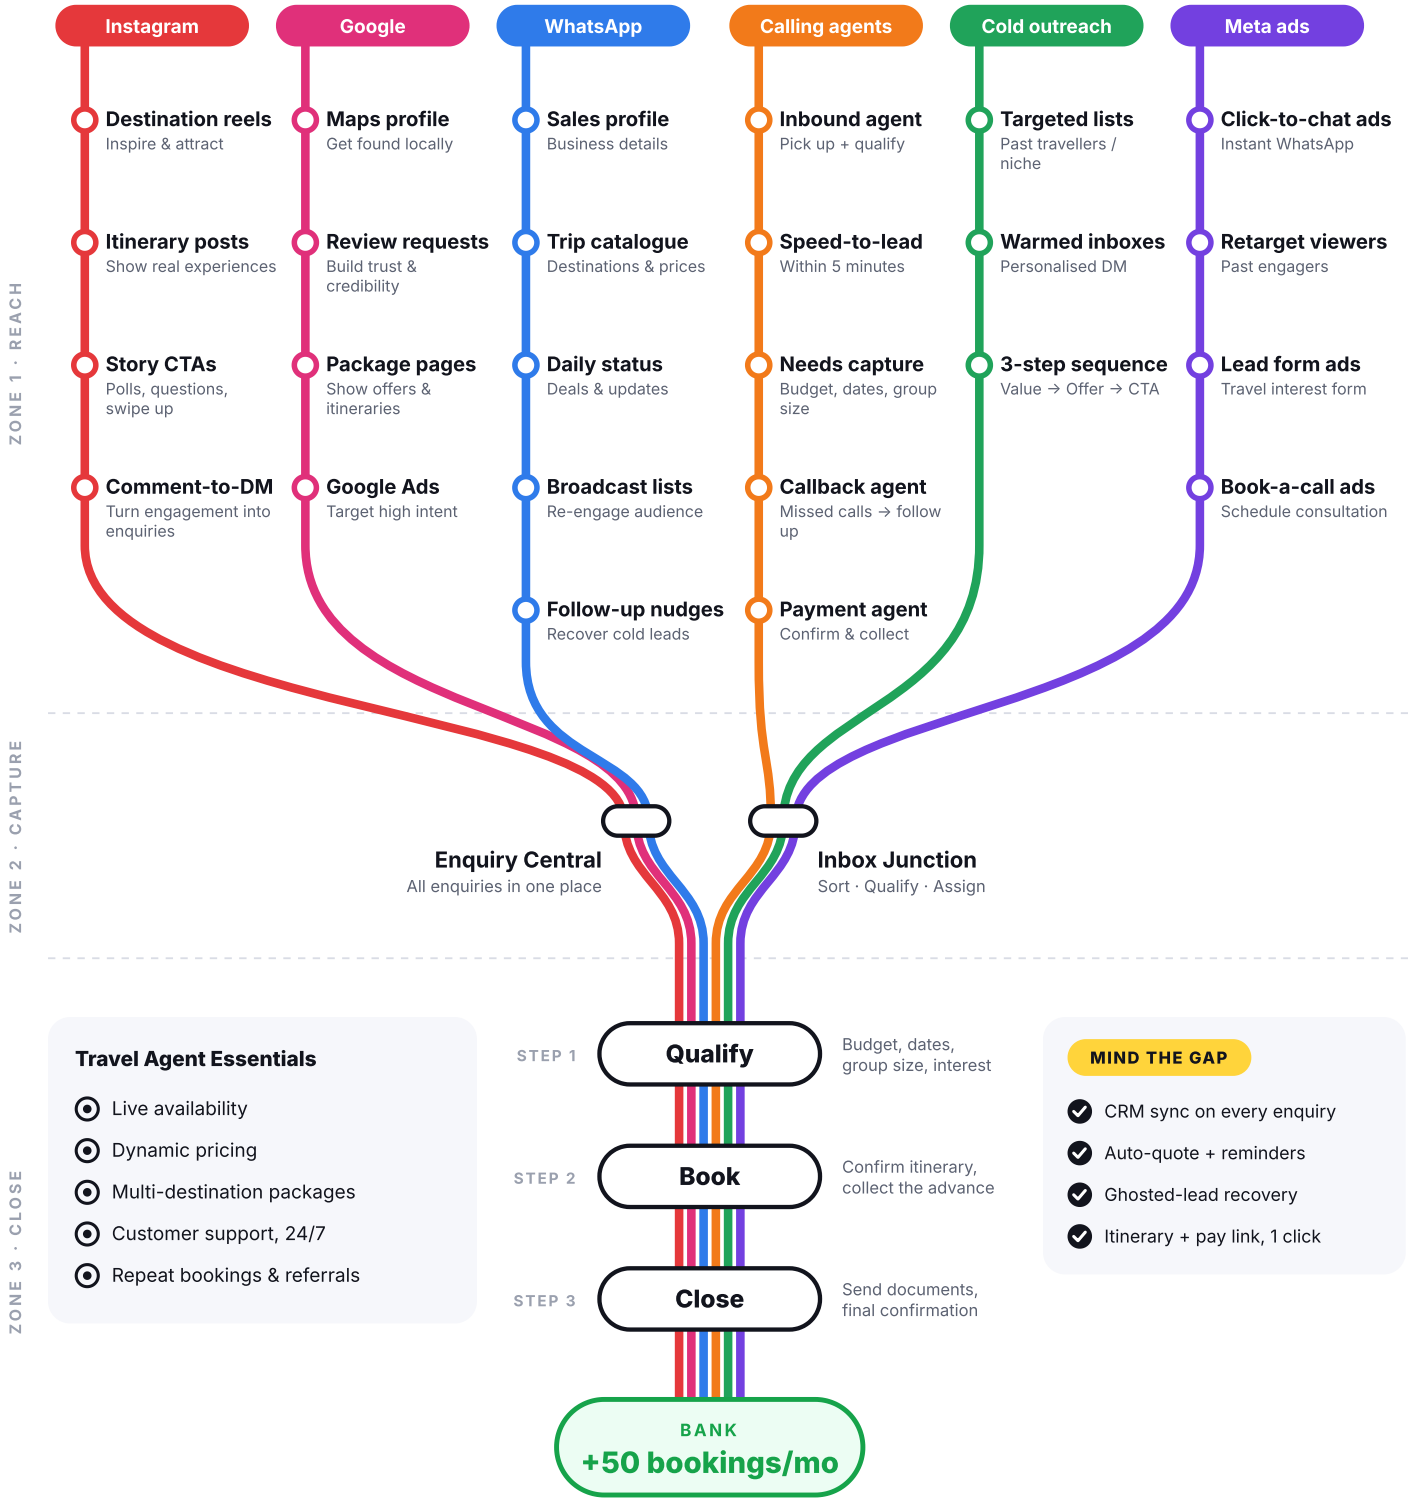

ZONE 3 · CLOSE

1 close zone where AI qualifies, quotes and collects the advance. Your team steps in only for hot leads.

Build it bottom-up. Fix capture and close first, then add more reach. Pouring more ad money into a leaky system just buys you more missed calls.

Travel Agent AI Map

Add 50 bookings a month.

Travel Agent Essentials

- Live availability
- Dynamic pricing
- Multi-destination packages
- Customer support, 24/7
- Repeat bookings & referrals

MIND THE GAP

- CRM sync on every enquiry
- Auto-quote + reminders
- Ghosted-lead recovery
- Itinerary + pay link, 1 click

6 LINES · 30 STOPS · 1 DESTINATION

Lines 1–2: Instagram & Google

LINE 1 Instagram

Where travellers dream. Turn scrolling into enquiries.

Destination reels
Inspire & attract

15–30 sec reels, one destination, one hook in the first 2 seconds: a price, a view, or a myth busted. Post 4–5 a week.

AI MOVE Script a month of reels in one sitting and schedule them all.

Itinerary posts
Show real experiences

Carousels of real trips, day by day, with what was included and roughly what it cost. Real customer photos beat stock every time.

AI MOVE Turn every confirmed itinerary into a ready carousel draft.

Story CTAs
Polls, questions, swipe up

Polls like “Kashmir or Kerala this winter?” Every vote or reply is someone raising their hand.

AI MOVE Auto-DM everyone who votes or replies with a matching package.

Comment-to-DM
Turn engagement into enquiries

Ask viewers to comment a keyword (“KASHMIR”). They get the package in their DMs instantly, with a WhatsApp link.

AI MOVE Keyword-triggered DMs, 24/7. Exactly how this guide reached you.

LINE 2 Google

Where travellers search. Be the agency they find and trust.

Maps profile
Get found locally

A fully filled Google Business Profile: right categories, 20+ real photos, WhatsApp and call buttons, a fresh post every week.

AI MOVE Auto-reply to every review and question within minutes.

Review requests
Build trust & credibility

Ask on the last day of the trip while they're still happy, not a month later. Make it a single tap.

AI MOVE Review link goes out on WhatsApp automatically on the trip end date.

Package pages
Show offers & itineraries

One page per package: price-from, inclusions, dates, photos and a big WhatsApp button. No “call for price” dead ends.

AI MOVE Every form fill lands in the CRM and triggers an instant call.

Google Ads
Target high intent

Bid on searches like “Kashmir tour package from Delhi”, not just “travel”. Send each click to the matching package page.

AI MOVE Every ad lead gets an AI call within 5 minutes, day or night.

Lines 3–4: WhatsApp & AI calling agents

LINE 3 WhatsApp

Where India actually talks. Make it your storefront.

Sales profile
Business details

Business account with hours, address, website, catalogue link and a greeting message that asks one useful question.

AI MOVE Run it on the WhatsApp Business API so a bot can reply instantly.

Trip catalogue
Destinations & prices

Every package in your WhatsApp catalogue with a price-from, so people browse before they ask.

AI MOVE The bot shares the right catalogue item based on what the customer asks.

Daily status
Deals & updates

Last-minute seats, group departures, happy-customer photos. Your status is a free daily ad to everyone who saved your number.

AI MOVE Plan a full week of status posts in one go.

Broadcast lists
Re-engage audience

Segment by interest: honeymoon, family, pilgrimage, international. Only message people who opted in, using approved templates.

AI MOVE Seasonal offers go to the right segment automatically.

Follow-up nudges
Recover cold leads

When someone goes quiet after a quote, a planned sequence follows up for you (scripts on page 9).

AI MOVE Nudges stop the moment the customer replies or pays.

LINE 4 AI calling agents

The line most agencies are missing. Every call answered, 24/7.

Inbound agent
Pick up + qualify

Every call answered 24/7 in Hindi, English or a regional language, many calls at once. No busy tone, no “call after 10 AM”.

AI MOVE Human-sounding voice agent trained on your packages and FAQs.

Speed-to-lead
Within 5 minutes

Every form, ad lead or website enquiry gets a call within 5 minutes, before they finish messaging other agents.

AI MOVE The agent dials automatically the moment a lead lands.

Needs capture
Budget, dates, group size

Destination, dates, travellers, budget, departure city, hotel category, occasion. Asked naturally, written down every single time.

AI MOVE Answers go straight into the CRM with a short call summary.

Callback agent
Missed calls → follow up

Missed a call? It gets called back automatically within minutes, not whenever someone remembers.

AI MOVE A missed-call trigger starts the callback with full context.

Payment agent
Confirm & collect

A reminder call before the advance or balance is due, with the payment link sent on WhatsApp during the call.

AI MOVE Polite reminders until paid, then an instant confirmation.

Lines 5–6: Cold outreach & Meta ads

LINE 5 Cold outreach

Bookings you go and get. Start with people who already know you.

Targeted lists
Past travellers / niche

Start with your own past customers: the cheapest bookings you'll ever get. Then niches like corporate offsites, schools, wedding and pilgrimage groups.

AI MOVE Build and clean lists automatically, tagged by niche.

Warmed inboxes
Personalised DM

Warmed-up email domains and personalised LinkedIn or Instagram DMs that mention something real about them. No blasts.

AI MOVE Personalise the first line for every lead, at scale.

3-step sequence
Value → Offer → CTA

Message 1: a free trip idea. Message 2: a specific group offer. Message 3: "15-min call this week?" Then stop.

AI MOVE The sequence runs itself; replies land straight in your inbox.

LINE 6 Meta ads

Paid reach that lands straight in WhatsApp.

Click-to-chat ads
Instant WhatsApp

The ad opens a WhatsApp chat instead of a form. The bot replies in seconds with the package and a few qualifying questions.

AI MOVE The bot qualifies the chat and books a call slot.

Retarget viewers
Past engagers

Show offers to people who watched half your reels or visited a package page but never enquired.

AI MOVE Audiences refresh themselves as new people engage.

Lead form ads
Travel interest form

Keep it short: name, phone, destination, travel month. Every extra question costs you leads.

AI MOVE The AI calls each lead within 5 minutes of submitting.

Book-a-call ads
Schedule consultation

For high-ticket trips (international, honeymoons, big groups), let people pick a call slot directly.

AI MOVE Reminders before the call so they actually show up.

WHICH LINE SHOULD YOU BUILD FIRST?

Lots of phone enquiries? Start with Line 4. Missed calls are the most expensive leak you have.

Strong on Instagram? Line 1 comment-to-DM plus Line 3 WhatsApp turns views into chats.

Have a list of past travellers? Line 5 first. Repeat customers are the cheapest bookings there are.

Already running ads? Line 6 click-to-chat, plus a 5-minute AI call on every lead.

Zone 2 · Capture: two junctions, zero lost enquiries

Enquiry Central

All enquiries in one place

- Every DM, comment, call, form, WhatsApp chat and ad lead lands in one CRM.
- Each lead is tagged with the line it came from, so you know which line actually pays.
- No more leads living in someone's personal phone.

Inbox Junction

Sort · Qualify · Assign

- AI scores each lead hot, warm or cold from budget, dates and intent.
- Hot leads go to a person with the full conversation summary attached.
- Warm and cold leads stay in automated nurture until they're ready.

Zone 3 · Close: where enquiries become advances

STEP 1

Qualify

Budget, dates, group size, departure city, hotel category, occasion. AI asks on chat or call and logs it.

STEP 2

Book

Auto-quote with a day-wise itinerary, a payment link for the advance, reminders until paid.

STEP 3

Close

Vouchers, tickets, final itinerary PDF and pre-trip checklist, all sent automatically.

DESTINATION

Bank

Advance collected, booking counted. At trip end: a review request and a referral ask.

MIND THE GAP

- **CRM sync on every enquiry**
  If it isn't in the CRM, it doesn't exist.
- **Auto-quote + reminders**
  A quote in minutes, not tomorrow afternoon.
- **Ghosted-lead recovery**
  A planned sequence for everyone who goes quiet.
- **Itinerary + pay link, 1 click**
  Remove every step between “yes” and paying.

Travel Agent Essentials

Load these into the bot's knowledge so it answers like your best agent.

- Live availability
- Dynamic pricing
- Multi-destination packages
- Customer support, 24/7
- Repeat bookings & referrals

MORE TOUCHPOINTS TO ADD ALONG THE WAY

Destination galleries · Itinerary PDFs · Travel insurance · Visa assistance · Group tours · Flight & hotel bookings · Custom packages · Loyalty programs · Post-trip feedback · Multilingual support

One enquiry at 11 PM, two different endings

WITHOUT THE MAP

- DM seen at 10:40 AM next day.
- Call back at noon. No answer.
- WhatsApp sent. Blue ticks, silence.
- She booked last night with the agency that replied in 3 minutes.

WITH THE MAP

11:02 PM	A traveller comments **“KASHMIR”** on your reel.
11:02 PM	Instant DM: the Kashmir package, price-from and a WhatsApp link.
11:03 PM	On WhatsApp the bot asks four things: dates, travellers, budget, departure city.
11:05 PM	She asks to talk. The AI agent calls her in Hinglish, answers hotel and sightseeing questions, notes everything.
11:12 PM	Two options and a day-wise itinerary land on WhatsApp. Lead marked **HOT** in the CRM.
9:30 AM	Your agent opens the CRM, sees the full summary and sends a personal voice note.
Day 2	No reply yet? A friendly nudge with photos from a family who did the same trip.
Day 3	She pays the advance through the UPI link. Vouchers sent automatically. **Booked.**

Where do +50 bookings a month come from?

An example agency getting **400 enquiries a month** and converting 7.5% books **30 trips**. Most of the other 370 aren't “not interested”. They hit one of the three leaks.

+20 · After-hours & missed calls
Answered by the AI agent instead of waiting for morning.

+15 · Ghosted leads
Won back by a follow-up sequence instead of being forgotten.

+15 · Speed & instant quotes
A 5-minute response and same-night quote lift conversion.

30 → 80 bookings a month at the same ad spend: a 20% conversion rate instead of 7.5%. **+50**

Illustrative example. Your numbers depend on enquiry volume, ticket size and how fast your team replies today.

Scripts you can use this week

Swap the {brackets} for your details. Keep the tone the way you'd actually talk to a customer.

1 · WHATSAPP FIRST REPLY (INSTANT)

Hi {Name}! Thanks for asking about **{Destination}**. I'm the travel assistant at {Agency}.

To send you the right package, 4 quick questions:
1. Travel dates or month?
2. How many people (adults / kids)?
3. Rough budget per person?
4. Starting from which city?

Reply here, or tap below for a quick call in Hindi or English.

2 · AI CALLING AGENT FLOW (HINGLISH)

Open	"Namaste {Name} ji, main {Agency} se bol rahi hoon. Aapne abhi {Destination} trip ke liye enquiry ki thi. 2 minute baat kar sakte hain?"
Qualify	Dates → kitne log (adults, kids) → budget per person → departure city → hotel category → occasion (honeymoon, family, elderly parents).
Answer	Only from your package sheet and FAQs. Never invents prices or availability.
Next step	"Main abhi WhatsApp pe aapko 2 options bhej rahi hoon. Kal subah hamare travel expert call karenge, 10 baje theek rahega?"
Hand-off	Anyone who asks for a person, or a hot lead, goes to a human with the full call summary.

3 · FOLLOW-UP SEQUENCE AFTER A QUOTE

Day 0 · +2 hrs	"Did the itinerary open properly? Happy to change hotels or add a day."
Day 1	Social proof: 3 photos or a short video from a family who did the same trip last month.
Day 3	Helpful nudge: best time to visit, what's included, and "Want me to hold these dates for you?"
Day 7	The break-up message: "Should I close this enquiry, or keep your dates open?" Usually gets the most replies.
Day 30	Re-engage with a fresh package for the same destination or the next season.

Two rules that keep this from feeling spammy:

- Every message stops the moment the customer replies, books or says no.
- Only send urgency ("4 rooms left") when it's true. One fake deadline costs you the trust the rest of the system built.

The 30-day rollout

Bottom of the map first. Every week ships something that saves bookings on its own.

WEEK 1

Plumbing

One inbox: WhatsApp Business API + CRM. Every source tagged. Trip catalogue live.

WEEK 2

Never miss a call

AI inbound agent, missed-call callbacks and 5-minute speed-to-lead on every form.

WEEK 3

Close faster

Auto-quote templates, itinerary PDFs, payment links and the follow-up sequence.

WEEK 4

Turn up reach

Comment-to-DM, click-to-WhatsApp ads, review requests, past-customer outreach.

10-question booking leak audit

Tick every “yes”. Be honest, nobody's watching.

- [ ] 01 Is every enquiry answered within 5 minutes, even at 11 PM?
- [ ] 02 Are missed calls called back automatically?
- [ ] 03 Do DMs, calls, forms and WhatsApp chats all land in one place?
- [ ] 04 Do you know which channel brought each booking?
- [ ] 05 Do you capture budget, dates and group size in the first conversation?
- [ ] 06 Can you send a quote and itinerary within 15 minutes?
- [ ] 07 Does every quote get at least 4 follow-ups?
- [ ] 08 Can customers pay the advance in one tap?
- [ ] 09 Do you ask every traveller for a Google review at trip end?
- [ ] 10 Do you message past travellers before every season?

8–10 · Tight
Your system works. Add reach lines and scale.

5–7 · Leaking
You're losing bookings every week, mostly at night.

0–4 · Wide open
The map will pay for itself fastest here.

GoRan
BUILDING INTELLIGENCE
